PROFESSIONAL SUMMARY

Computer Science graduate (Software Engineering major) from the Arab Academy for Science, Technology & Maritime Transport (AASTMT). Passionate about software engineering, AI technologies, and problem solving, with hands-on experience from internships and academic projects, including a recently completed Full Stack Development virtual internship. Skilled in software development, debugging, testing, and UI/UX design. Seeking a remote Software Engineering, QA, or AI Training opportunity where I can contribute while expanding my technical expertise.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, C++, PHP, JavaScript, SQL
Web Development: HTML5, CSS3, Bootstrap, React, Node.js, Express.js, REST APIs
Databases: MySQL, SQLite
Software Engineering: OOP, Data Structures & Algorithms, SDLC, Software Testing, Debugging, QA, Git & GitHub
AI & Data: AI Prompt Evaluation, Data Annotation, Model Response Evaluation, Dataset Preparation
UI/UX: Figma, Wireframing, User Flow, Design Systems, Prototyping
Tools & Deployment: VS Code, Android Studio, PyCharm, Jupyter Notebook, Trello, Testiny, XMind, Railway, Vercel

EXPERIENCE

Full Stack Development Virtual Intern | *B.Y.T.E by Arithmatrix Tech, Remote* Sep 2026 – Oct 2026

- Built a full stack secure authentication app (React + Node.js/Express) with registration, login, password hashing, token-based sessions, protected endpoints, and input validation.
- Developed an Employee Management System with full CRUD using Node.js/Express, SQLite, and React; deployed the auth app (backend on Railway, frontend on Vercel).

PHP Development Trainee | *Findo Group* 2025

- Completed backend web development training using PHP and MySQL fundamentals.

IT Intern | *Alex Gases and Metal Works Company, Alexandria* Aug 2024 – Sep 2024

- Assisted with IT operations and technical support; learned IT infrastructure, system management, and organizational workflows.

Software Engineering Intern | *AppSoft Company, Alexandria* Jul 2024 – Aug 2024

- Completed an internship focused on software development processes and the SDLC, participating in debugging, testing, and development activities within a team.

PROJECTS

Daleel – Graduation Project | *Community-driven mobile and web platform simplifying governmental procedures for Egyptian citizens*

- Designed and developed a multi-service governmental guidance platform; contributed to system analysis and software design.
- Designed user flows, wireframes, and UI components in Figma; collaborated with the team using Agile practices; participated in testing, debugging, and API integration.

Food Delivery Application

- Designed a complete UI/UX design system with personas, user journeys, wireframes, and interactive Figma prototypes, focused on usability and consistency across mobile and web.

Software Testing Project

- Designed test cases and performed exploratory and functional testing; reported bugs using Trello and managed test execution using Testiny.

React Web Project

- Developed responsive user interfaces with reusable components using React and Material UI.

EDUCATION

Bachelor of Computer Science – Software Engineering Major | *AASTMT, Alexandria, Egypt* Graduated: 2026
Relevant Coursework: Software Engineering, Data Structures, Algorithms, Operating Systems, Database Systems, Web Development, Artificial Intelligence, Machine Learning Fundamentals, Software Testing

High School Diploma | *El Nasr Girls' College (EGC), Alexandria; English and French Language Diplomas* Graduated: 2022

CERTIFICATIONS, LANGUAGES & STRENGTHS

Certifications: Software Engineering Training Certificate (AppSoft Company); Information Technology Training Certificate (Alex Gases and Metal Works Company); PHP Development Certificate (Findo Group)
Languages: Arabic (Native), English (Fluent), French (Basic)
Strengths: Problem Solving, Teamwork, Analytical Thinking, Time Management, Fast Learner, Attention to Detail, Communication, Adaptability
